Re: Special Use Permit for amendment to conditions of Burroughs School SUP

The current Special Use Permit for Burroughs School requires that enrollment of the school be capped at 650 students. The cap was modified in 2016 from 600 to 650. There are no construction projects being proposed at this time, but Burroughs would like to amend the condition on the Special Use Permit to increase the enrollment cap to 675.

Amendments to an educational institution in a residential zoning district require a Special Use Permit.

This application is recommended to be referred to the Zoning and Planning Commission for further review.
